## IAF FUNDING FOR THE CONSTRUCTION OF A SYNTHETIC TRACK

### INTRODUCTION

1. In principle, the IAF will give priority to the countries where no synthetic track at all exists. The applicant must explain **the synthetic track situation in the country**.
2. In principle, the IAF contribution is **limited to \$60,000 by project**. (IAAF may provide an additional support, but limited)
3. In principle, the IAF financial contribution will be paid to the builder after completion of the works and delivery of track certification.
4. The IAF contribution will be cancelled if the works are not completed within 24 months after the Council's agreement.

### OBLIGATION OF THE APPLICANT

1. The applicant must send his request to the IAF **before 30 September**
2. This request must include an explanation on the situation **the synthetic tracks in the country**.
3. The request must also include the **technical specifications** of the project:
  - a) Map of the track
  - b) Number of lanes
  - c) Number of square metres of synthetic track to be laid down
  - d) The track must be made of **an IAAF-certified product**.
4. The applicant must guarantee that an **IAAF Track certification** will be requested and obtained (at least class 2).
5. The request must include the **list of all the costs involved**, including:
  - Foundations, general infrastructure, such as cabling;
  - Quote from a track manufacturer;
  - Cost of technical equipment to be purchased in order to have a complete stadium.
6. The overall cost of the above-mentioned items must be covered by **different funding sources**, which have to be listed with proof of the financial pledges, and including the \$60,000 grant from the IAF.
7. The applicant must also provide a letter of the owner guaranteeing that these facilities will remain available for athletics purposes at least in the next 15 years.
8. The proposed **schedule of work** must be attached
