

IAAF Athletes' Commission on Governance reforms:

"We, the IAAF Athletes' Commission, would like to formally communicate our absolute support, and conviction of the necessity of the proposed reforms to the IAAF Constitution.

In our minds, the future of our Sport depends upon Athletics restructuring and moving forward as one of the leading global sports, with a Governing Body that is accountable, transparent, robust, flexible and representative of our sport.

One where the Ethics, Integrity and wellbeing of the Athletes is a fundamental and non-negotiable principle and is duly protected. Very importantly, one where the athletes' voices are heard, respected and represented at all levels of the sport, including the highest level.

The new proposed Integrity Unit will break new ground, set and enforce higher ethical standards and enable Athletics to regain the credibility and trust it deserves. We believe it takes huge strides towards better serving and protecting the rights of all those who take part in and follow our sport. We recommend the IAAF Congress accepts and passes these reforms resolutely."
