IAAF = Ratified IAAF World Record; **IAAF_{mx}** = Ratified IAAF Women's World Record racing with men;**IAAF_{wo}** = Ratified IAAF Women's Only World Record (i.e. not mixed with or paced by men)AFR = African; ASI = Asian; CAC = Central American & Caribbean; Com = Commonwealth; EUR = European; NAM = North American; OCE = Oceanian; SAM = South American; W = World best; Wu18 = World under-18 best; Wu20 = World under-20 best; Wo35 = World over-35 best; Wo40 = World over-40 best; Records as at March 18, 2018 (^a = awaiting ratification)

a = aided road course according to IAAF rule 260.21b (separation between start and finish points more than 50% of race distance) or 260.21b (decrease in elevation greater than one in a thousand); South America do recognise additional marks in this category); WO = women-only race (Shown for North America as the USA keep separate records in this category);

+ = en route performance; mix = mixed race (men and women together); ⚡ = not timed officially

Africa, Europe, the CAC and Oceania do not yet recognise road race records in all these events, but may recognise marks which were set on aided courses.

In April 2017, the IAAF Council approved a proposal for the discontinuation of IAAF World records at 15Km and 20Km (and 25Km & 30Km) from November 1 that year. It was felt that most of the marks made at these distances were intermediate times and very few competitions were organised with these as the advertised full distance. A world record for 5Km record was introduced, with the Initial record to be recognised after January 1 2018. The eligible performances shall be equal to or better than 13:10 (men) and 14:45 (women), and if no such performances are achieved in 2018, the best performances of 2018 are to be recognised on January 1, 2019

* The birthdate of Kenneth (Kiprop) Kipkemoi KEN was misreported as August 5, 1994 but is apparently August 2, 1984, so his 59:11 Half Marathon (den Haag, 11 Mar 12) is not shown here as a world junior best. Similarly Dennis (Kipruto) Kimetto (Koech) KEN was variously reported to have been born on November 13, 1993 or January 22, 1994, but the compiler understands that January 22, 1984 is his correct birthdate. Therefore his 59:14 Half Marathon (Berlin, 1 Apr 12) should also not be regarded as a world junior best

PROGRESSION OF WORLD ROAD RECORDS & BEST PERFORMANCES

(Up to Half Marathon)

+ = en route performance

Ratified marks are shown in bold

Indented plain marks are those set on courses which do not fulfill IAAF criteria (Rule 260.21b/c)

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. From November 1, 2011 the IAAF specified that "world records in road races for women [were] to be recognised in women only races", though before that rule was enforced it was decided not to apply it in retrospect, so all existing world records (set in mixed races) remained standing. From November 1, 2013 it was agreed that the IAAF would separately ratify the best marks in single gender (i.e women only) road running races. Therefore two progressions are shown here where relevant. A mixed race record will be ratified even if it is inferior to the equivalent women only mark. As explained on page 40, the IAAF Council in 2017 agreed to discontinue of IAAF World records at 15Km and 20Km (plus 25Km & 30Km), but add ones for the 5Km.

Listed is the progression of world bests prior to official acceptance and superior unrated marks thereafter. Indented are unrated marks or those set on uncertified or unaided courses which do not fulfill the criteria specified in IAAF Rule 260.21b (separation between start and finish points should not be more than 50% of race distance) or 260.21c (the decrease in elevation should not be greater than one in a thousand). Record ratified by the IAAF are shown in bold. + denotes marks set en route to longer distances.
